"The shorter your time frame of trading the less money you'll make." "You will never make big money until you learn to hold on to your winners, and the longer you hold the more potential you have for profiteering...It takes time to make money regardless of the activity." "Wealth is not amassed with just good market calls. It also requires correct money management." "I think you need to fear the market and fear yourself...Without fear there is no respect, if you do not respect the markets and fear yourself you will become one more dead body on the long trail of commodity market casualties scattered across the land." Filled with invaluable insight, precise rules and formulas, and helpful advice from one of today's most respected market players, this comprehensive and practical resource will serve as the basis for, if not indeed become, your short-term trading "gospel."
