Applied System Innovation: Proceedings of the 2015 International Conference on Applied System Innovation (ICASI 2015), May 22-27, 2015, Osaka, Japan

The 2015 International Conference on Applied System Innovation (ICASI 2015) was held May 22-27, 2015 in Osaka, Japan and provided a unified communication platform for researchers working on a wide range of topics from information technology, innovation design, communication science & engineering, industrial design, creative design, applied mathematics, computer science, design theory and cultural & creative research to electrical & electronic engineering, mechanical & automation engineering, green technology & architecture engineering, material science, and other related fields. The conference brought together a diverse group of engineers and technologists from across disciplines for the generation of new ideas, collaboration potential and business opportunities. Professionals from industry, academia and government were encouraged to discourse on research and development, professional practice, business and management in the fields of information, innovation, communication and engineering, as is reflected by the contributions to this proceedings volume.
