Exploratory Data Analysis with MATLAB, Second Edition (Chapman & Hall/CRC Computer Science & Data Analysis)

Wendy L. Martinez, Angel R. Martinez, Angel Martinez, Jeffrey Solka

Exploratory Data Analysis with MATLAB, Second Edition (Chapman & Hall/CRC Computer Science & Data Analysis) Wendy L. Martinez, Angel R. Martinez, Angel Martinez, Jeffrey Solka

Since the publication of the bestselling first edition, many advances have been made in exploratory data analysis (EDA). Covering innovative approaches for dimensionality reduction, clustering, and visualization, **Exploratory Data Analysis with MATLAB[®], Second Edition** uses numerous examples and applications to show how the methods are used in practice.

New to the Second Edition

- Discussions of nonnegative matrix factorization, linear discriminant analysis, curvilinear component analysis, independent component analysis, and smoothing splines
- An expanded set of methods for estimating the intrinsic dimensionality of a data set
- Several clustering methods, including probabilistic latent semantic analysis and spectral-based clustering
- Additional visualization methods, such as a rangefinder boxplot, scatterplots with marginal histograms, biplots, and a new method called Andrews' images
- Instructions on a free MATLAB GUI toolbox for EDA

Like its predecessor, this edition continues to focus on using EDA methods, rather than theoretical aspects. The MATLAB codes for the examples, EDA toolboxes, data sets, and color versions of all figures are available for download at <http://pi-sigma.info>

From reader reviews:

Donald Andrews:

What do you with regards to book? It is not important together with you? Or just adding material when you really need something to explain what you problem? How about your spare time? Or are you busy individual? If you don't have spare time to complete others business, it is make you feel bored faster. And you have spare time? What did you do? All people has many questions above. They need to answer that question due to the fact just their can do which. It said that about e-book. Book is familiar on every person. Yes, it is proper. Because start from on guardería until university need this particular Exploratory Data Analysis with MATLAB, Second Edition (Chapman & Hall/CRC Computer Science & Data Analysis) to read.

Donna Moore:

Nowadays reading books become more and more than want or need but also turn into a life style. This reading routine give you lot of advantages. Advantages you got of course the knowledge even the information inside the book which improve your knowledge and information. The details you get based on what kind of publication you read, if you want get more knowledge just go with education and learning books but if you want really feel happy read one using theme for entertaining including comic or novel. Typically the Exploratory Data Analysis with MATLAB, Second Edition (Chapman & Hall/CRC Computer Science & Data Analysis) is kind of reserve which is giving the reader unstable experience.

Mitchell Peed:

This Exploratory Data Analysis with MATLAB, Second Edition (Chapman & Hall/CRC Computer Science & Data Analysis) is great guide for you because the content which can be full of information for you who all always deal with world and get to make decision every minute. This book reveal it data accurately using great plan word or we can point out no rambling sentences inside it. So if you are read that hurriedly you can have whole info in it. Doesn't mean it only provides straight forward sentences but tricky core information with attractive delivering sentences. Having Exploratory Data Analysis with MATLAB, Second Edition (Chapman & Hall/CRC Computer Science & Data Analysis) in your hand like keeping the world in your arm, facts in it is not ridiculous 1. We can say that no guide that offer you world within ten or fifteen small right but this e-book already do that. So , this is good reading book. Hey there Mr. and Mrs. stressful do you still doubt which?

Frank Foushee:

The book untitled Exploratory Data Analysis with MATLAB, Second Edition (Chapman & Hall/CRC Computer Science & Data Analysis) contain a lot of information on this. The writer explains the girl idea with easy approach. The language is very simple to implement all the people, so do not worry, you can easy

to read the item. The book was published by famous author. The author will take you in the new time of literary works. You can actually read this book because you can keep reading your smart phone, or product, so you can read the book with anywhere and anytime. If you want to buy the e-book, you can open up their official web-site as well as order it. Have a nice learn.
