Hendrik M. van Aken

The Oceanic Thermohaline Circulation: An Introduction (Atmospheric and Oceanographic Sciences Library) Hendrik M. van Aken

This book presents a global hydrographic description of the thermohaline circulation, an introduction to the theoretical aspects of this phenomenon, and observational evidence for the theory. The hydrographic description and the observational evidence are based on data sources available via internet, mainly from the World Oceanographic Experiment (WOCE). The book also offers an introduction to hydrographic analysis and interpretation.
