Emphasizes the metabolic pathways (carbohydrates, lipids, amino acids) and their diseases, for medical students and other health professionals. Includes a large foldout Biochemistryland Map. Medical students often complain that their biochemistry courses do not focus on clinical relevance. This book, while not a reference book or a dissertation on all aspects of biochemistry, selects the most clinically relevant material that every clinician should know, and presents it in a way that enables the student to quickly see the subject as a conceptual whole.
