p.(12) Traveling through the galaxy just became easier with a new series of LEGO brick Starships from 1st Foundations. Microbuild Starship Ten is just 46 bricks, an easy build, and a great way to pass the time anywhere you go.

Space flight began with unmanned probes traveling through the galaxy. With Microbuild Starship 10 we have brought the unmanned probe back with a new look and new capabilities. Its original design was meant to sample the environments on new worlds and look for safe new planets to colonize from earth. With large sensors arrays on the wings and a moving storage collector, this probe can quickly gather large amounts of data. What will you use this probe for....lets see after it's built.

LEGO bricks are a great way to stimulate the creative skills in any child or adult.

All of our artwork is in color for readers and apps that support color display.

1st Foundations is proud to offer these instructions on behalf of the NH LEGO League. The NH LEGO LEAGUE is an organization founded to help develop social, creative, and educational skills through the use of LEGO bricks for kids.
