Masculinities in Chinese History (Asia/Pacific/Perspectives)

Bret Hinsch

Masculinities in Chinese History (Asia/Pacific/Perspectives) Bret Hinsch

Masculinities in Chinese History is the first historical survey of the many ways men have acted, thought, and behaved throughout China's long past. Bret Hinsch introduces readers to the basic characteristics of historical Chinese masculinity while highlighting the dynamic changes in male identity over the centuries. He covers the full span of Chinese history, from the Zhou dynasty in distant antiquity up to the current era of disorienting rapid change. Each chapter, focused on a specific theme and period, is organized to introduce key topics, such as differences between the sexes and the mutual influence of ideas regarding manhood and womanhood, masculine honor, how masculine ideals change, the use of high culture to bolster masculine reputation among the elite, and male role models from the margins of society. The author concludes by exploring how capitalism, imperialism, modernization, revolution, and reform have rapidly transformed ideas about what it means to be a man in contemporary China.
