A Textbook of Head and Neck Anatomy B. K. B. Berkovitz, B. J. Moxham

This textbook is designed to be used in conjunction with "A colour atlas of head and neck anatomy" by McMinn (072340755X Wolfe). The material is arranged in the same order, the same terminology is employed and figure references are given alongside the text. The work covers the topographical anatomy of the head, neck and brain including a section on neurology. Detailed line drawings accompany the text and the dissections in the "Atlas", while case histories are included after each chapter (190 in all). Complex material has been summarized in graphical form.
